

NLC Surface-Mounted Loop

An innovative solution for your vehicle detection needs.

Model: OWL-SM1000-6

Product Description:

An innovative loop solution for the parking industry. Perfect for concrete structures that prohibit the use of saw cut loops. Get your gate up and running fast with the Surface-Mounted Loop. It arrives assembled and ready to install. It has been designed for use with automatic gates and common vehicle detection needs in the parking access revenue control industry (PARCS). Compatible with all loop detectors.

Specifications:

Includes 6' of Protected Lead-In, 30' of Twisted Pair Lead-In, and 3 tubes of adhesive for binding.

Detection Dome	21 $\frac{3}{8}$ " x 20 $\frac{3}{8}$ " x $\frac{3}{4}$ "
Lead In Protection	6' x 3" x $\frac{3}{4}$ "
Total Assembled Length	55 $\frac{1}{2}$ "
Total Assembled Weight	19.5 lbs.
Product Material	Industrial Strength EPDM
Twisted Lead-In	30' Lead
Country of Origin	100% Made In USA
